

Salam Eleikum

I'm **Sagheer Umrani**

C# C-Shrap Programmer |

Passionate and dedicated programmer with a deep love for coding and technology. With over 500 projects completed across various platforms, I have extensive experience in Android app development, website design, computer software, and Python scripts for Linux environments. I am constantly learning and pushing the boundaries of what's possible, including developing educational malware projects for research purposes. I have successfully built applications for individual clients and companies, tailoring solutions to meet specific needs. My commitment to innovation and problem-solving drives me to continuously grow and excel in the ever-evolving tech landscape.

WHO AM I?

I'm a computer science student and software developer.

I am a programmer and software developer who thrives on solving complex coding challenges and finding solutions to errors and problems in software. My love for gaming fuels my creativity, while my dedication to the gym keeps me focused and healthy. I am always excited about exploring new technologies and gadgets, which keeps me up to date with the latest industry trends. A fast learner by nature, I constantly seek opportunities to expand my skills and knowledge. I also enjoy working in a team environment, where collaboration and shared ideas lead to innovation and success.
